Video Minor

(18 credits)

The Video minor trains students to develop multimedia, time-based work for digital audiences. Students will take courses in video production, video post-production, motion graphics and visual effects. Students will additionally take Film Appreciation to give context to their original productions. This minor is a good supplement to any major and will empower students to visually communicate the messages of their primary discipline.

To earn the Video minor, students must complete the courses listed below:

CO 139	Introduction to Digital Video & Audio
CO 239	Digital Video & Audio I
CO 339	Digital Video & Audio II
CO 243	Motion Graphics & Visual Effects I
CO 244	Motion Graphics & Visual Effects II
CO 341	Film Appreciation
