

Academic Policies and Procedures: Graduation, Transcripts and Student Records

Degree Conferral

Degrees are awarded three times a year in December, May, and August.

A student's official graduation from Albertus Magnus College occurs on the day the College confers students' degrees. This only occurs after a student has successfully completed all of their degree requirements. Degrees are posted to the transcript approximately 2 weeks after degree conferral. After that date, students can confirm with employers, etc. that they have completed all degree requirements and are graduates of the College.
