

Academic Support Services

Accessibility Services

The Office of Accessibility Services is dedicated to creating a living and learning environment that is accessible and equitable to all students. Through working with students with disabilities and providing necessary and reasonable accommodation, the Office provides equal access to all educational opportunities, as well as full participation both inside and outside the classroom.

In line with Albertus Magnus College's Mission, the Office of Accessibility Services promises to:

- Work in partnership with other offices to build an accepting and richly diverse student body.
- Educate students in self-advocacy, preparing our students for both college and life beyond.
- Provide accommodations and continuously examine areas of growth, including accessible technologies, in service of creating an educational environment that enhances student development.

Albertus Magnus College does not offer specific academic programs for individuals with disabilities. However, Albertus recognizes its responsibility to provide reasonable accommodations to promote equal educational opportunity, and it is in compliance with the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973.

Students should consult the Accessibility Services web page at <https://www.albertus.edu/accessibility> or contact the Office of Accessibility Services for information about requesting accommodations, submitting disability documentation and accessing approved accommodations.
