Computer Information Systems Minor

(18 credits)

The minor in Computer Information Systems (CIS) allows students to diversify their coursework and add career-relevant skills to their resume. The CIS minor is a great partner to many different majors at Albertus, including Business Management, Accounting/Finance, Criminal Justice, Social Science, and many others. To earn the minor in CIS, students must complete the courses listed below:

Six Computer Information Systems (CIS) courses

This flexibility allows students to tailor their CIS coursework to best meet their academic and career goals.
