Project Management Minor

(18 credits)

Businesses of all sizes rely on the expertise of project teams to accomplish their goals. Everyone, at some point in their career, will either be part of a team or lead a team. Project management is about managing people, planning, organizing, and achieving specific goals on-time and on-budget. The Project Management minor will provide students with key skills to lead projects from start to finish. To earn the Project Management minor, students must complete the courses listed below:

CIS 174	Introduction to Programming
MG 142	Introduction to Project Management
MG 261	Project Planning
MG 367	Strategic Management
MG 370	Project Execution, Monitoring & Control, Implementation & Closure
MG 385	Advanced Project Management Practicum

Courses offered fully online through LCMC: MG 261, MG 370, MG 385
